

# DOWNLOAD THE EVOLVE APP

## To install on iPhone/iPad

- Open Safari OR Chrome
- In your search bar, navigate to the full URL <https://evolve.glide.page> OR [evolve.glide.page](https://evolve.glide.page) may also work. An install prompt will appear.
- Tap the elevator icon (box with upward pointing arrow) on the menu bar at the bottom of your screen → scroll down in the window that appears and select the menu item that says "Add to Home Screen". Confirm by clicking "Add"
- The new app will appear on your home screen and direct you to enter your email address and pin once opened

## To install on Android

- Enter [evolve.glide.page](https://evolve.glide.page) OR <https://evolve.glide.page> into the search bar of your google chrome browser.
- Click install in the popup window that appears. Select "add to home screen".
- Open the new app and it will prompt you to enter your email address and send you a pin which you need to enter.

## To install on Windows

- enter [evolve.glide.page](https://evolve.glide.page) OR <https://evolve.glide.page> into the search bar of your google chrome browser.
- Follow the prompt to install the app on. (If you don't see a prompt click on the monitor icon with a downward arrow in it in the right hand side of your search bar).
- Click on this icon and the program will prompt you to enter your email address and send you a pin which you need to enter.
